

A man with a beard and short hair is wearing a white VR headset and holding a white VR controller. He is smiling widely, showing his teeth. He is wearing a red shirt and a chain necklace. He has a tattoo on his left forearm and several rings on his fingers. The background is blurred, showing what appears to be an indoor setting with other people.

COURSE OFFERINGS

Studying at Technical
University of Applied Sciences
Augsburg at a Glance

ELEVEN REASONS WHY YOU SHOULD STUDY AT THA!

1. Wide range of subjects: Our degree programs cover the fields of technology, economics, design, and social sciences.

2. Current teaching and research topics: We deal with topics that move the world, such as artificial intelligence and sustainability.

3. Practical relevance instead of dry study: With us, you will not only learn theory, but also work on projects with direct practical relevance.

4. Modern teaching and learning methods: Our teaching is cutting-edge and tailored to the needs of our students.

5. Personal support: We offer a good student-to-staff ratio and comprehensive advice.

6. Lively campus life: There is always something going on here. Many student initiatives and activities are waiting for you to get involved.

7. Making a difference together: We bring together people from different cultures and backgrounds to learn from and with each other.

8. Strong network: We maintain close relationships with partners from business and society.

9. Active entrepreneurial spirit: Do you have an exciting idea? As the best start-up university in Germany, we will support you in implementing it.

10. Central location: Our campus is located in the heart of the city and has excellent public transport connections.

11. Beautiful Augsburg: The city offers you a wide range of opportunities in the areas of sports, (pop) culture, and recreation.

**ANY QUESTIONS?
WE ARE HAPPY TO HELP!**

International Office

Are you coming from abroad and would like to study at the Technical University of Applied Sciences Augsburg? The team at the International Office will be happy to help you. The IO also comes into play if you are planning a semester abroad. The International Office is your point of contact for all questions relating to studying abroad.

Contact: international@tha.de
T +49 821 5586-3552
www.tha.de/en/international

Academic advising

Want to go into detail? If you have specific questions about your desired degree program, the professors teaching the program will be happy to advise you personally. You can find their contact details on the website for your desired degree program:

www.tha.de/en/study-program

Student Office

The Student Secretariat is your point of contact for all study-related administrative procedures and also helps with formal questions during the application phase, among other things.

Contact: stdabt@tha.de
www.tha.de/en/Student-Office

Studierendenwerk Augsburg

Want to know how to finance your studies or how to get a room in a student residence? Then get in touch with the Augsburg Student Services Association. The team will also help you with social, legal, or psychological problems.

HAVE YOU DECIDED TO STUDY AT TECHNICAL UNIVERSITY OF APPLIED SCIENCES AUGSBURG? NOW YOU NEED TO APPLY!

All information and FAQ about applying to THA can be found online at: www.tha.de/en/application

Rules of thumb for applying

The application period for restricted-admission bachelor's programs (known as NC programs) runs from May 2 to July 15. For bachelor's programs without admission restrictions or with aptitude tests, as well as master's programs, please note the deadline for the respective program.

The deadlines also apply to applications for a higher semester.

The university entrance qualification or preliminary review documentation (for foreign applicants) can be submitted by July 27 or January 30 at the latest.

www.uni-assist.de/en

For bachelor's programs without admission restrictions or with aptitude tests, as well as for master's programs, the specific deadline for the respective program applies.

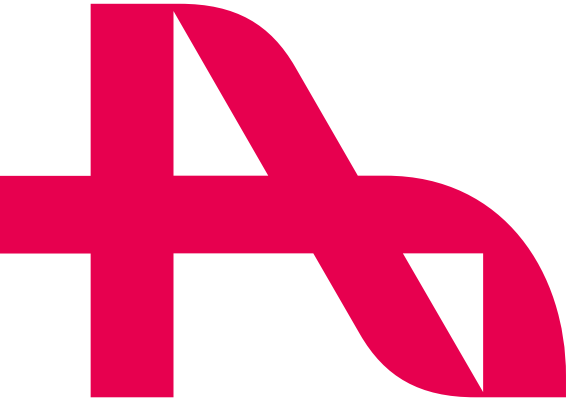

For part-time degree programs, some different application deadlines apply.

Online application

Online applications are only possible during the respective application period via the online portal of the Technical University of Applied Sciences Augsburg. You must also submit any additional documents via the online portal.

hochschulstart.de – Stiftung für Hochschulzulassung

Admission to NC degree programs in the first semester is carried out exclusively via the dialogue-oriented service procedure (DoSV) of the Stiftung für Hochschulzulassung. For most NC bachelor's degree programs at the Technical University of Applied Sciences Augsburg, study places are therefore allocated via the allocation procedure of hochschulstart.de.

HOW TO FIND YOUR DEGREE PROGRAM!

Tips from our Central Student Advisory Service on choosing your degree program:

1. **Allow enough time!** Choosing your degree program is a learning process, so make sure you get all the information you need in good time.
2. **Be clear about what you actually want and where your strengths lie!** Think about what drives you and what interests you.
3. **Gather information and find out about the admission requirements!** Do you need internships, language tests, or professional experience in advance? Is your degree program restricted? Do you have a university entrance qualification for German universities? Have you already submitted preliminary review documentation (Vorprüfungsdokumentation VPD) to uni-assist e. V.?
4. **Pay attention to application deadlines!** Check the THA website to find out when you can apply for your desired degree program.
5. **Use study choice aids!** Take study choice tests, visit study fairs, and attend information events. The THA always holds its big study orientation day in the spring, and there are also a variety of information events throughout the year.
6. **Don't be afraid to ask questions!** The THA has a student advisory service that can help you with any questions you may have about studying at the THA.
7. **The proof of the pudding is in the eating!** Do an internship and gain some professional experience. Ask your parents, acquaintances, and friends about their experiences.
8. **Clarify the general conditions!** How expensive is a degree program? How will you finance it?
9. **Take a look at the THA!** Do you like the city? Do you feel at home on our campus?

Still undecided?

The Startfenster program provides guidance

You're not sure yet what you want to study, or whether studying is right for you. Then the two-semester Startfenster program is just the thing for you. The program is aimed at prospective students with

university entrance qualifications. Participants have student status and the opportunity to attend courses from various faculties and get to know university life.

Almost all degree programs have opened up their timetables from the first semesters of the bachelor's programs and jointly created a catalog of courses for "trial runs".

THIS IS THE TECHNICAL UNIVERSITY OF APPLIED SCIENCES AUGSBURG

An attractive place to study, an innovative research institution, a sought-after source of inspiration for companies in the region – over the past 50 years, Technical University of Applied Sciences Augsburg has developed into one of the most important educational and scientific institutions in Bavarian Swabia.

Today, more than 7,500 students from 80 nations are enrolled in around 50 bachelor's, master's, and continuing education programs that provide them with practice-oriented training that prepares them for the challenges of an international job market while also focusing on the needs of the regional economy.

Freedom, openness, and fun in innovation

At THA, students gain extensive specialist knowledge, application skills, and social skills—all in a creative and meaningful environment. This is how the Technical University of Applied Sciences Augsburg develops highly sought-after individuals who develop practical solutions for the future. They are sought-after partners for business and society, true to the motto: Shaping the world together!

Lively environment

Campus life at THA is colorful and varied. Students have the opportunity to get involved in various university groups and initiatives – from the big band to the Formula Student Team StarkStrom. Augsburg as a place to study also has a lot to offer: Bavaria's third-largest city has a wide range of activities for sports and culture fans, history buffs, and nature lovers.

Internationalism in practice

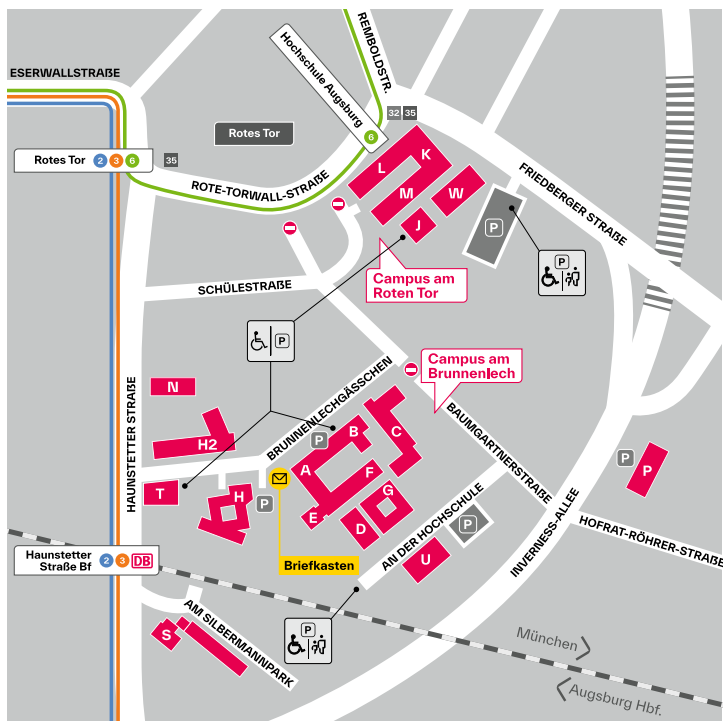

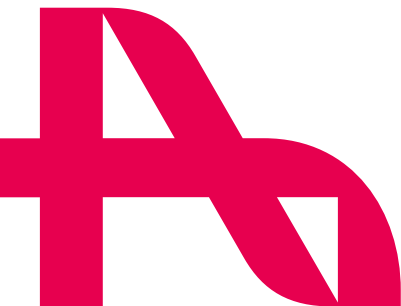

Technical University of Applied Sciences Augsburg has strong regional roots and an extensive international network: it maintains partnerships with around 190 universities worldwide. Teaching and learning are embedded in a climate of tolerance, mutual respect, and open-mindedness—not only toward the latest developments in research and technology, but also toward different cultures, diverse lifestyles, and alternative career plans.

Students who are planning to study abroad as part of their studies receive support from the International Office – regardless of whether it is an internship abroad, an Erasmus semester, a study visit to a non-European country or a summer school during the semester break.

Perfectly prepared for your studies

To make it easier for new students to start their studies, THA offers the “Startklar” program. First-year students are given numerous orientation events to gain an initial insight into their respective field of study and learn the basics of scientific work.

Anyone whose school graduation was some time ago, or who would like to refresh their knowledge, can take part in the preparatory bridge course in mathematics. In addition, introductory courses on the university's digital study tools are offered.
