STUDY ABROAD PROGRAM

The Study Abroad Program offers you the chance to study 3 or 4 courses at USC for one semester and earn credit towards your home degree.

DIPLOMA PROGRAM

The Diploma is a **great alternative** to the Study Abroad program as you can complete an Australian qualification. The courses you can study are similar to Study Abroad courses, are on the Bachelor level and in different disciplines. There are no additional

assessments required to complete a Diploma. The courses have the same assessment requirements as if you study the courses via the Study Abroad program.

- You can complete a Diploma in only **one semester** (4 courses) if you have completed at least one semester of your home degree. USC credits 30 ECTS of your completed modules towards the Diploma.

USC offers the following Diploma Programs:

- [Diploma in Business](#)
- [Diploma in Communication](#)
- [Diploma in General Studies](#)
- [Diploma in Social Science](#)
- [Diploma in Sport and Fitness](#)

BENEFITS OF COMPLETING A DIPLOMA OR DEGREE INSTEAD OF STUDY ABROAD

- You will receive an Australian university qualification certificate additionally to the academic transcript
- You can participate in a completion ceremony at the end of the program and wear the graduation robe
- You will receive discounts on public transport

All the above benefits are currently **not** available to Study Abroad enrolled students as Study Abroad is a non-award program.

USC BACHELOR OR MASTER DEGREE

You can also consider completing a Bachelor or Master degree in a short period of time. With full credit transfer you could complete a Bachelor in two semesters or a Master degree in only one semester. For more information and details on how to apply please contact [USC International](#).

Samantha Wollitzer,
University of Applied Sciences Augsburg

The USC prepared an introduction week for all international students, which helped a lot. They supported us in every way they could, and they try to guide us through our studies. I never felt lost!

The study system is very different to the one in Germany. During the semester I wrote several assignments, prepared for group presentations and did some mid-semester-tests. These gathered points count in the end of the semester and therefore in two courses I don't even have an exam. I like this system, because I can keep the information better, when I work on academic texts throughout the semester. I also learned how to do research on academic readings and how to reference correctly.

Furthermore, the campus is enjoyable. I just feel happy when I see the kangaroos hopping around the campus. Additionally, here are many Cafes with good coffee and good food. It is quite big compared to Augsburg and the people are very friendly.
