THA_connect

Welcome to
THA_connect – your
guide to studying and
careers in Germany

THA_connect is a project of the Technical University of Applied Sciences Augsburg that supports international students on their journey from the beginning of their studies to their professional career in Germany. With targeted offers, personal advice, and a strong network, we support you in successfully completing your studies and gaining a foothold in your career.

Objectives of the project

THA_connect pursues four central goals:

1. Ensure academic success

International students should successfully complete their studies.

2. Prepare for career entry

We strengthen your employability through practical offers.

3. Facilitate transitions

We build bridges between studies and the job market – with targeted support.

4. Build networks

Through cooperation with companies, alumni and institutions, we create sustainable structures.

Future Career Lounge

Your central contact point

The Future Career Lounge is the heart of THA_connect. Here you'll find:

- Compact language courses
- Mentoring my Alumni
- Networking and information events

Whether online or on-site – we accompany you on your journey.

Intensive preparation course B2/C1 prepare_study_stay B2 and C1

The course is aimed at **all international prospective students** who want to learn German and obtain a language certificate for admission to study in Germany.

Contents:

- German lessons (B2/C1)
- TestDaF preparation
- Intercultural training
- Tutorial & Leisure Activities
- Excursions & networking with alumni and companies

Our four bridge modules

Targeted support at the crucial transitions

1. Language

Preparatory German courses (B2/C1) with TestDaF training and intercultural preparation.

2. Practical Semester

Advice, matching and support in the search for internships.

3. Practical experience during your studies

Service-learning projects and industrial projects with regional companies – practical and future-oriented.

4. International Alumni Hub

Further qualification, application training and network building for international graduates.
